

Allscripts MyWay™

Simple, Complete, Affordable Solution for the Entire Practice

If you've been waiting to deploy advanced healthcare technology at your practice because of cost and complexity barriers, the wait is over. Now there's a better way: Allscripts MyWay.

Now every medical practice, regardless of size, can enjoy the same technology advantages as the largest enterprise operation. Allscripts MyWay is a comprehensive "right sized" solution that gives small practices and even solo practitioners the key application features and functions necessary for Electronic Health Records (EHR), Practice Management, and Claims Management.

Importantly, the Allscripts MyWay solution also delivers three attributes that are usually missing from advanced healthcare applications: simplicity, completeness, and affordability.

Simplify Your Practice's Workflow

Intuitive, easy to learn, and even easier to use. Created to work the way you do, Allscripts MyWay offers unique features like adaptive learning, customization on the fly, and a template-free workflow that match the way providers practice medicine.

ADAPTIVE LEARNING

Allscripts MyWay automatically learns the individual practice patterns of each physician or user and adapts itself to them making workflow and charting faster and easier.

INTELLIGENT NAVIGATION

Allscripts MyWay automatically displays relevant clinical content based on presenting symptoms, even to the point of suggesting next logical entry options. Move freely anywhere without enter/exit screens to quickly find information you need.

EASY CUSTOMIZATION

Allscripts MyWay enables customization 'on the fly'. Users can easily create or modify screens and preferences without being a programmer. Match your personal workflow and preferences, and allow each user in the practice to do the same.

TEMPLATE-FREE CHARTING

Flexible enough to follow your preferred workflow, you can go wherever you need to in the application to document multiple complaints or handle multiple patients easily. You're in control.

Industry Needs:

- Low cost to deploy advanced healthcare technology
- Easy and expedient deployment process for advanced healthcare technology

Key Benefits:

- Simplifies practice workflow
- Delivers an integrated EHR, PM and Claims Management solution
- Provides an affordable solution for smaller practices

Key Features:

- Adaptive learning
- Intelligent navigation
- Easy customization
- Template-free charting
- Timesaving and efficient communication tool
- Intelligent navigation

Adopt a Complete Solution for Your Practice

Allscripts MyWay is an integrated solution that enhances clinical, business, and financial performance with EHR, Practice Management, and Claims Management capabilities. One unified database makes sharing clinical and business information effortless and seamless across your entire practice.

Allscripts also offers innovative solutions that work seamlessly with Allscripts MyWay to increase both patient and provider access to information. With Allscripts Remote, providers can securely access the EHR from their mobile device – anytime, anywhere. With Allscripts Patient Portal, providers can share data and communicate directly with patients to enhance practice efficiency and patient satisfaction.

Choose the Affordable Solution

Available for a low monthly fee, Allscripts MyWay does not require a large up-front investment or IT staffing. Choose between a hosted offering (use the software application as a service), or an on-premise solution (installed on a server at your site). You've got the flexibility to pick the best approach for your practice to balance capital budgets, equipment, operating costs, and your own information technology expertise.

It's created to work the way you do and supports a growing list of specialties — including: family medicine, internal medicine, pediatrics, and urgent care — Allscripts MyWay solutions offer unique performance capabilities that match the way you like to work.

If you've been waiting to deploy advanced healthcare technology at your practice because of cost and complexity barriers, the wait is over.

Now there's a better way: Allscripts MyWay.

"I think MyWay is an accurate statement. Allscripts MyWay is constructed to be the way you want it. It's truly my way of doing medicine. Working with the system is extremely easy. When I'm not in the office, I can access patient information. Patients like that I have ready access to their information, even from home. They feel more comfortable that I'm giving them the best healthcare I can."

Nicole Sheffield, M.D.
